GLSF — MILWAUKEE

From The President

Hello everybody. Well, the warm weather finally got here, and now it's too hot. Go figure! Just come to Wisconsin and watch it go from winter to summer overnight! If you guys haven't been to the Fish-Ins, there are just a few that can catch the fish out there. Just remember, it only takes one to remember for life! The Fish-Ins are the place to find out some of those tips that

might land that one we have all been looking for. This is also the place to be for great food and a few brews. So make it a point to come to the next Fish-In and tell that story about the one that got away. I also want to say thank you to Kurt Pokrandt and everybody that works so hard to make that food and chill those beers.

The Brew City contest is right around the corner, and we are still looking for help on the dock and set up. So please give me a call and volunteer your help. (342-2019). Not only do we need help at the site, we also have room for more boats to join the contest. Like I said in the Fish-In story, it only takes one to win! So come on down and join the fun. There will lots of raffles with some great prizes.

?? GLFC FUNDING ??

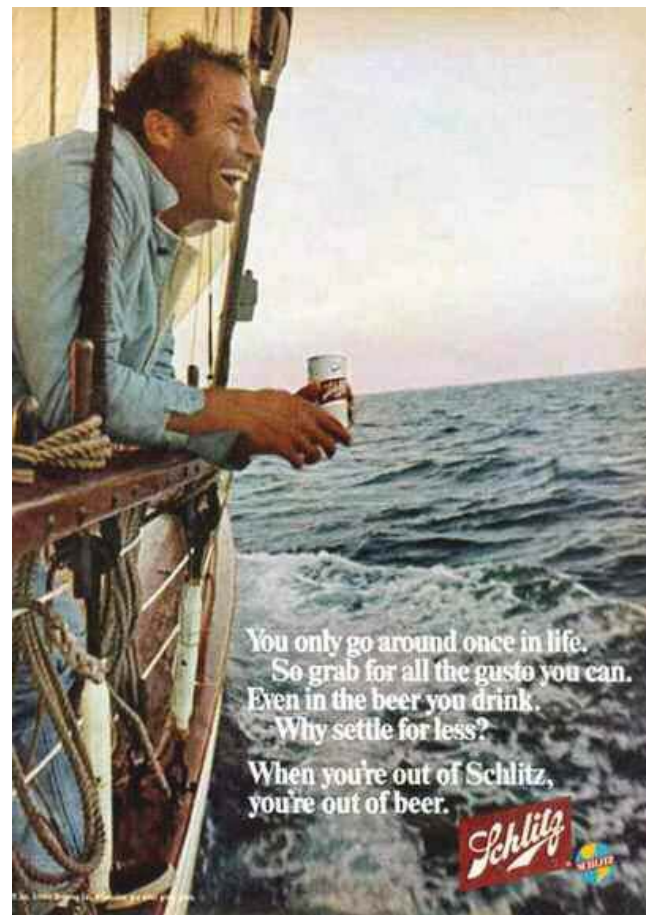

GLFC Funding from the United States: There is good news on the funding front for fiscal 2010: The U.S. House has proposed \$22.8 million for the Great Lakes Fishery Commission. The Senate has proposed \$23.2 million (with \$1.5 of that for Lake Champlain). The commission received \$17.8 million in fiscal 2009 (plus \$1.2 million for Lake Champlain). The proposed increase will be used to ramp up sea lamprey control in problem areas and to conduct an “all-stream” treatment in a large Great Lake (whereby all sea lamprey-producing streams in the lake are treated in two consecutive years). (Recall that the all-stream treatment approach is being tested in Lake Erie; currently, the results are promising.)

The House- and Senate-proposed appropriation levels need to pass the Senate and need to be reconciled between the two chambers, but the proposed funding levels are very encouraging and bode well for the future of the Great Lakes fishery. Congressmen Jesse Jackson Jr and Mark Kirk (both of IL), and Senators Richard Durbin (IL), George Voinovich (OH), and Arlen Specter (PA) sit on the subcommittees that fund the commission. Congressman David Obey (WI) chairs the full committee in the House and Senator Patrick Leahy (VT) chairs the Senate subcommittee. These members have been strong advocates for the Great Lakes and the

commission and have included the proposed funding in the appropriation bills. Attached are the appropriation letters from the Great Lakes Task Force, which organized the support. The task force is chaired by Representatives Ehlers (MI), Slaughter (NY), Dingell (MI), and Kirk (IL) and Senators Levin (MI) and Voinovich (OH). Their leadership has made a huge difference for the Great Lakes! Several Great Lakes members signed the Great Lakes Task Force’s letters including: Senators Levin and Stabenow (MI) and Brown and Voinovich (OH), and Representatives Slaughter (NY), Ehlers (MI), Dingell (MI), Kirk (IL), Conyers (MI), Dahlkemper (PA), Lee (NY), Davis (IL), Gutierrez (IL), Levin (MI), Upton (MI), Kagen (WI), Kucinich (OH), Higgins (NY), Petri (WI), Moore (WI), Schakowsky (IL), Rogers (MI), Peters (MI), Miller (MI), Stupak (MI), and McHugh (NY—Mr. McHugh sent a separate letter). Members of the appropriations committee do not normally sign appropriation letters, so it is also important to note that Representatives Kaptur (OH), Visclosky (IN), Kilpatrick (MI), Ryan (OH), and LaTourette, and Senator Kohl (WI) have also done much to advance Great Lakes policy and the work of the commission. Other members (who did not sign the group letters) might have weighed in directly with the subcommittee, so support has likely come from other places.

President Obama Creates “Great Lakes Restoration Initiative”

Great Lakes Restoration Initiative: In his fiscal 2010 budget, President Obama created the “Great Lakes Restoration Initiative” (GLRI), which proposed \$475 million to fund high-priority restoration projects for the Great Lakes. This proposal was in follow-up to the recommendations put forward through the Great Lakes Regional Collaboration. The goal for the \$475 million is to fund projects above normal base budgets; that is, the funds are not designed to be a substitute for normal agency or programmatic appropriations. The Environmental Protection Agency (EPA) will administer the funds, though the funds are for all federal agencies involved in Great Lakes restoration. Information about the GLRI is online at <http://www.epa.gov/greatlakes/glri/>. The proposed funding plan (which was developed after extensive consultation with federal agencies) is on the EPA’s website at:

<http://www.epa.gov/greatlakes/glri/GLRIProposed2010FundingPlan050509.pdf>. Page 5 of the funding plan contains a list of federal agencies and the portion of the \$475 million they are to receive, should Congress provide the funds. The proposal for “DOS-GLFC” relates to the Great Lakes Fish-

ery Commission. The commission is to receive about \$7 million under the GLRI to move the pheromone program through the testing phase and to undertake a telemetry initiative for native species restoration.

The House provided the entire \$475 million in its “Interior” appropriations bill. The Senate included \$400 million. The two amounts need to be reconciled. The GLFC and many others in the region have been strong supporters of the GLRI and wrote to Congress several weeks ago (attached letter) in support of the president’s proposal. GLFC staff have also participated in many GLRI-related planning activities and phone calls. The EPA, in cooperation with the Great Lakes Commission, is holding a series of public meetings to discuss the GLRI. Pasted into this message, below, is the email from the EPA, sent July 10th, announcing the public meetings. Interested advisors are encouraged to attend a meeting.

| Brown | Kayak Fishing WI | Keith Gelhar | 4.56 |

The second Fish-In is in the books, and it was another tough day of fishing. Everybody marked lots of bait and fish, but could not get the fish to hit. The most any boat caught was 10, and 4 boats were skunked. If you have missed both Fish-Ins and only fish the next two, you will have a very good chance of finishing in the top ten and a realistic chance of being in the top five. Only three out of four results count, and since the first two days were terrible there is a good chance to do real good with just two results.

I would like to thank Roger Stack of **R&R the Fish'N Hole** for sponsoring the Fish-Ins again. We will be awarding gift certificates to R&R for the top ten boats and biggest fish for all five species at the end of the season. Roger has everything you need to catch fish on Lake Michigan and the experience to help you find exactly what you need.

I would also like to again thank everyone who helped out, especially Ken and Dawn Nowak. They did an excellent job setting up and cooking the brats. Couldn't do it without you! Also thanks to **Karl's Country Market** for the excellent food and drink. After a brutal day of fishing, the great food is something to look forward to. Finally, thanks to the ladies of the club for all the excellent deserts. All of this for \$5 - you cannot beat this.

The next two Fish-Ins are **July 26** and **August 30**. This is a great way to get ready to fish **Brew City** and become more successful catching Salmon and Trout. I will be weighing in boat catches for **Brew City** rules after the Fish-In weigh in. In **Brew City** you weigh-in 15 fish for 10 points a fish and 1 point a pound. The gas money bet will be based on this total for the July 26 Fish-In. Seven of the boats that fished the first two Fish-Ins have finished in the top 5 of **Brew City**, and this is a great way to learn new techniques.

There is one Fish-In rule change going forward: You must launch your boat out of the Port of Milwaukee or Bender Park. Call Kurt Pokrandt at 414-460-1467 by the Thursday before a Fish-In to register or with questions. Good luck fishing and have a safe boating season!
